

CHAPTER 1.

INTRODUCTION

This Volume is divided into nine chapters. Chapter 1 provides a brief introduction and lists the contents of subsequent chapters. Chapter 2 is titled Consistency with Other Federal, State, and Local Land Use Plans, Policies, and Controls and provides a summary table that identifies relevant plans, policies, and controls that apply to the proposed actions. Chapter 3 identifies required permits and approvals. Chapter 4 discusses the irreversible and irretrievable commitment of resources. Chapter 5 provides a discussion on the relationship between short-term use of the environment and long-term productivity; it is subdivided into resource categories. Chapter 6 addresses the goals of sustainability and smart growth. Chapter 7 provides the distribution list of agencies receiving this document, and Chapter 8 provides information on the individuals and organizations that prepared this document. Chapter 9 presents a list of references used in this Volume.
